Fund and Index Data as of Sept. 30, 2009

## Fund Description

Invesco PowerShares Capital Management LLC<sup>3</sup> is passionate about its goal of delivering the highest quality investment products available by seeking to replicate intelligent indexes in one of the more benefit-rich investment vehicles, the exchange-traded fund.

Invesco PowerShares provides institutional-caliber products by seeking to replicate enhanced indexes. These indexes derive their investment decisions from methodologies that incorporate technically advanced and robust institutional investment research. The PowerShares DB Agriculture Fund is based on the Deutsche Bank Liquid Commodity Index Diversified Agriculture Excess Return<sup>™</sup> and managed by DB Commodity Services LLC. The Index is a rules-based index composed of futures contracts on some of the most liquid and widely traded agricultural commodities. The Index is intended to reflect the performance of the agricultural sector. You cannot invest directly in the Index.

## Fund Data

Fund Symbol	DBA
Share Price <sup>4</sup>	\$25.50
Intraday NAV (IIV) <sup>5</sup>	DBAIV
NAV Price <sup>4</sup>	\$25.63

S&P 500	-8.86	20.38	-0.43

All Index history reflects a blend of the performance of the aforementioned Indexes ("DB Agriculture Index<sup>™</sup>").

<sup>2</sup> The Fund's exchange listing date: Jan. 5, 2007. Unless otherwise noted, historical information of all displayed indexes is based on this date.

<sup>3</sup> Invesco PowerShares Capital Management LLC is not a sponsor or promoter of the Fund and is not responsible for the performance of the Fund or the decisions or actions of the managing owner of the Fund, DB Commodity Services LLC.

<sup>4</sup> Please see <http://dbfunds.db.com/dba/index.aspx> for current DBAGIX Level; Indicative intra-day NAV; and last end-of-day NAV.

The Fund seeks to track the Deutsche Bank Liquid Commodity Index Diversified Agriculture Excess Return<sup>™</sup> (Symbol: DBAGIX). Results for the Deutsche Bank Liquid Commodity Index Diversified Agriculture Total Return<sup>™</sup> (Symbol: DBLCDBAT), which consists of the Index plus 3-month U.S. Treasury securities returns, are displayed because the Fund collateralizes futures positions with 3-month U.S. Treasury securities.

The Dow Jones-UBS Agriculture Total Return Sub-Index<sup>SM</sup> (DJ-UBS Agriculture) and the Barclays

Capital U.S. Treasury 20+ Year Index<sup>™</sup> (Barclays Capital U.S. Treasury 20+) are unmanaged indexes used as a measurement of change in U.S. Treasury bond and agricultural market conditions, respectively, based on the performance of a specified group of U.S. Treasury bonds and a basket of agricultural commodities, respectively. The S&P 500<sup>®</sup> Index (S&P 500) is an unmanaged index considered representative of the U.S. stock market. Dow Jones-UBS Agriculture Total Return Sub-Index<sup>SM</sup> (DJ-UBS Agriculture) is a trademark of Dow Jones & Company, Inc. and UBS Securities LLC. The Barclays Capital U.S. Treasury 20+ Year Index<sup>™</sup> is a trademark of Barclays Capital. You cannot invest directly in an index.

**PLEASE SEE IMPORTANT CONSIDERATIONS ON BACK.**

**Shares are not individually redeemable. Owners of the Shares may acquire those Shares from the Fund or tender those Shares for redemption to the Fund in Creation and Redemption Units, respectively, typically consisting of 200,000 Shares.**

## How the Fund Invests and Potential Advantages

The Fund invests in liquid futures contracts trading on regulated exchanges and has the following potential advantages:

- **Cost savings:** The Fund does not incur either the cost of storing a physical commodity or the cost of entering into a commodity-linked note with a dealer, a cost that is usually much higher than entering into an exchange-traded futures contract.
- **Interest earned:** Owning physical commodities provides an investor with no interest income. The Fund collateralizes its futures contracts primarily with U.S. 3-month Treasury bills and earns interest on these securities. This interest accrues to the benefit of investors.
- **Transparency & liquidity:** The Fund invests in actively traded futures contracts at publicly available prices determined by trading on regulated futures exchanges. We believe that this allows the Fund to gain a more direct and cost-effective exposure to commodities at generally better prices than if the Fund either bought commodity-linked notes, which are not publicly priced, or less liquid futures contracts.

## IMPORTANT CONSIDERATIONS

- **Commodities and futures generally are volatile and are not suitable for all investors. The Fund will be successful only if significant losses are avoided. Funds focusing on a single sector generally experience greater volatility. Please review the prospectus for break-even figures for the Fund.**
- **The Fund is speculative and involves a high degree of risk. An investor may lose all or substantially all of an investment in the Fund.**
- **The Fund is not a mutual fund or any other type of Investment Company within the meaning of the Investment Company Act of 1940, as amended, and is not subject to regulation thereunder.**
- **Shares in the Fund are not FDIC insured, may lose value and have no bank guarantee.**
- **This material must be accompanied or preceded by a prospectus. Please read the prospectus carefully before investing.**

## Leading the Intelligent ETF Revolution<sup>®</sup>

<sup>5</sup> The Intraday NAV is a symbol representing estimated fair value based on the most recent intraday price of underlying assets.

Market returns are based on the midpoint of the bid/ask spread at 4 p.m. ET and do not represent the returns an investor would receive if shares were traded at other times.

Volatility is the annualized standard deviation of monthly index returns.

Beta is a measure of relative risk and the slope of regression.

Sharpe Ratio is a risk-adjusted measure calculated using standard deviation and excess return to determine reward per unit of risk. A higher Sharpe Ratio indicates better risk-adjusted performance.

Correlation indicates the degree to which two investments have historically moved in the same direction and magnitude.

Alpha is a measure of performance on a risk-adjusted basis.
